

Reverse Logistics

Reliable centralized control

Confidence Delivered.®

Customized solutions for complete satisfaction

With YRC Reverse Logistics we customize your solution, providing cost reduction and customer satisfaction in an environmentally sensitive manner.

You'll benefit from:

- Single source for all your reverse logistics requirements
- Coverage throughout the U.S. and Canada
- Multi-modal transportation solutions management
- Dedicated teams focused solely on your requirements
- Web-based systems provide real-time access to data
- Accurate and reliable reporting allows transparency
- Simple hands-on shipping process for your customers – complete with shipping documents, labels, and carrier pickup requests
- Strategically located return centers free up your labor and warehouse space
- Flexible pricing options

Optimize returns

Rely on YRC Reverse Logistics to move your business forward. Our team is ready to solve your most complex product return or asset recovery challenges, including:

- Seasonal returns
- Merchandise change-outs
- Stock adjustments
- Product recycling
- Reusable/returnable container tracking
- Product buyouts
- Recall/campaign events
- Disposal

Gain control

YRC Reverse Logistics will help you gain control, reduce costs, and improve customer satisfaction with an integrated, seamless reverse logistics process.

One call for confidence

Just one point of contact is your direct pipeline to virtually any service you might need. YRC Reverse Logistics gives you the ultimate in flexibility and efficiency.
