

# Driving miles for healthier smiles

Christina's Smile Children's Dental Clinic provides dental care at no cost to youngsters in need throughout the country. YRC helps make it possible.

Since 1992, YRC has transported and maintained two 48-foot trailers which house the mobile dental clinic at no charge. A new 53-foot trailer was introduced in 2007.

The clinics travel in conjunction with the PGA TOUR and Champions Tour. The clinics contain three fully equipped, dental treatment operatories along with x-ray and sterilization equipment. Over 40,000 children have

received quality dental care valued at over \$17 million from the clinic since 1990.

At every stop, local dentists and dental auxiliary volunteer to staff the clinic. They

provide dental services to children in need from their community. Children are identified by local charitable agencies to receive care.

YRC-sponsored events raised over \$800,000 for Christina's Smile Children's Dental Clinic in 2008.

We will continue to provide transportation and raise funds for this worthy cause in 2009.
